

HARDENED AND GROUND PRECISION GRINDING VICE

- Used for holding the jobs, spark erosion operation, right angle grinding & Light machining.
- Made from high quality alloy steel.
- Accuracy for Square ness, Flatness & Parallelism within $\pm 0.005\text{mm}$.
- Jaw pressure on work piece is forward & downward for repeatable positioning & maximum holding power.
- All sides can be used as reference.
- Hardness $60 \pm 2 \text{ Rc}$ & Tempered.
- "V" on moveable jaw for better gripping of round jobs.

Art No.	Size (mm)	Jaw-Holding Area (mm) ²
263.01	150 L x 48 W x 60 H	0 - 75
263.02	180 L x 63 W x 70 H	0 - 90
263.03	200 L x 73 W x 80 H	0 - 100
263.04	235 L x 96 W x 96 H	0 -- 125
